

# Lighting

## Over 250 fixtures in-house

- 190 professional up lights in house
  - RGBAWUV - red, blue, green, amber, white, UV
  - Custom colors designed for each event
- 24 Lekos - textured lighting & front lighting used for color washes
- 42 Pin spots
- 6 high quality LED Martin moving lights
- 4 lighting consoles & 2 Mac based consoles
- Market lighting - 2 styles each with 2 colors
- Hardware for all lighting, including rigging
- We always use consoles - this allows us to save our fine tuned color palette, as well as control dimming and our moving lights
- Clients love the consoles - enables them to easily dim or change colors mid-event if we are not on site
- New laptop programming platform - dynamic color changes, unique effects and even greater versatility.
- Custom graphic design of gobos to enhance the theme of the event.
